Contact: Office of Public Affairs2415 First AvenueSacramento, CA 95818(916) 6576437 |dmvpublicaffairs@dmv.ca.gov FOR IMMEDIATE RELEASEOctober 22, 2021 Field office visit not required in the coming months Sacramento Californians age 70 and older may continue to renew their drivers licenses online or by mail through December 31, 2022. Governor Gavin Newsom recently signed legislation to extend this temporary rule. The ability for senior drivers to renew at dmv.ca.gov/online including for REAL ID renewals and even if their renewal notice states a field office visit is required is another example of how Californians can take care of most DMV tasks without an office visit. Customers applying for a REAL ID for the first time may start the application online and upload the required documents. They must visit a field office to take a photo and finalize the process. The DMV continues to streamline its processes to limit the time customers spend at an office. The DMV recommends customers use its online services, expanded virtual services, and other service channels to complete transactions, including eligible drivers license and vehicle registration renewals. Customers can use the Service Advisor on the DMV website to learn their options to complete DMV tasks. With more customers using online services, DMV offices have more space to accommodate Californians who need a REAL ID or complete other tasks that require an office visit. ### Update: In September 2024, the DMV announced that the knowledge test will be waived for many renewing drivers 70 and over.California drivers 70 and over must pass a knowledge test every five years to renew their license but they now have the option to fulfill that requirement with a no-fail online video course.The COVID-era dispensation allowing elderly drivers to renew without an office visit has expired. Most of the procedure, though, can be completed from a home computer: You can fill out your personal information, submit REAL ID documents, take the knowledge test and pay the fee online, leaving only the vision test, photo, thumbprint and signature for the office visit.Following is information on renewals for age 70 and up, including links to Department of Motor Vehicles resources.ApplicationThough the renewal notice will say you must make an in-person visit, the DMV encourages all applicants to start the process online.At this DMV page select the option Start renewal online and finish at a DMV office. Knowledge testThis is required for renewal by drivers 70 and up. There are three ways to complete it: Take the conventional test in the DMV office, at one of their computer stations. Take the conventional test on your own computer at home, monitored by an online proctor. Take the eLearning course on your own computer or mobile device.The conventional renewal test has 25 questions, and you must get at least 20 right. You have three tries; if you fail twice on your home setup, you have to go into the office for the last try. To take it at home, you need a computer with a webcam to allow the proctoring, and it must be finished in one session, starting between 8 a.m. and 4 p.m. weekdays. Its available in 35 languages.The eLearning video course takes about 40 minutes. You watch seven lessons and answer several questions about each. Unlike the conventional test, it can be done on a tablet or smartphone as well as a computer, and it can be taken anytime. As of June 2024, it was available in English and Spanish, and the DMV said a Chinese-language version was in the works. The DMV site says you cannot fail eLearning if you complete the course, your knowledge test requirement is fulfilled.The two online test options (MVProctor and eLearning) will be presented to an applicant after the personal information and (if selected) REAL ID sections of the online application have been completed.Link to the California driver handbookPractice tests on the DMV siteAppointmentYou can schedule your office visit online, designating DL/ID Renewal. A driver can be flagged for examination, though, in cases involving certain mental or physical conditions or if the DMV has reason to suspect that a person is an unsafe driver.Link to the form requesting a driver be reexamined Originally Published: July 28, 2023 at 10:14 AM PDTThe latest rules: As of October 1, 2024, drivers whose licenses expire in 2024 and beyond will no longer need to take a written knowledge test.California law requires seniors to renew their drivers licenses in person every five years.This process involves submitting a license renewal application. There were two upgrades, GL/EF (elevation finder) and GL Mk.II (pictured), both improving the ability to determine a target's bearing and elevation. GL refers to the radar's ability to direct the guns onto a target, known as gun laying. The first GL sets were developed in 1936 using separate transmitters and receivers mounted on gun carriages. Several were captured in 1940, leading the Germans to believe falsely that British radar was much less advanced than theirs. The GL/EF attachment provided bearing and elevation measurements accurate to about a degree: this caused the number of rounds needed to destroy an aircraft to fall to 4,100, a tenfold improvement over early-war results. The Mk.II, which was able to directly guide the guns, lowered the rounds-per-kill to 2,750. About 410 Mk.Is and 1,679 Mk.IIs were produced.
