Beane started in the front office of Oakland Athletics in 1990, coaching different positions before taking part as general manager since 1997. His method for putting together a competitive team quickly became widely known. Beane adopted sabermetrics, the tactics of using data, player data, to evaluate player performance, in the early 2000s. It centered on the strategy of undervalued players who could do the job. This meant that the Oakland Athletics could compete with teams with exponentially more budgets. In 1990, Beane was signed on to the Oakland Athletics as a scout. He quickly shot himself to the top of the ranks as there was his keen eye for talent and understanding of the game. By the time Sandy Alderson became the Assistant General Manager in 1993, he had learned the tricks of baseball management. In 1997, Beanes ascension to General Manager of the Athletics was the start of a new baseball era. Beane had grown frustrated with the teams limited budget against big market teams, and decided to evaluate players using data. Instead of intuition, he built competitive rosters through undervalued players by relying on sabermetrics the empirical study of baseball statistics. It was this approach that was revolutionary. Beanes talent to find players, regardless of budget, that ranked well in overlooked categories such as OBP meant that the Athletics could compete at an elite level. All of his methods were described in Michael Lewiss 2003 book, Moneyball. Later, Beanes life inspired the movie The Art of Winning an Unfair Game, which starred Brad Pitt as Beane. The Athletics did many fine things under Beanes leadership. 2000-2003 Seasons: Beanes strategies proved effective the team made four consecutive playoff appearances. 2002 Season: The Athletics rolled off such an overnight run, which established an American League record of 20 consecutive wins.
